

# BASEMENT DOORS AND ACCESSORIES

## Steel Sided: O, B, C, and SL Doors

- Heavy duty steel construction
- Corrosion resistant
- Easy, one handle operation
- Side bolt locking mechanism
- Flanged construction and J-channel shed water prevent binding due to ice and snow

## Sloped Wall: 3641, 4651, 4751, 5055, and 5459 doors

- Heavy duty steel construction
- Corrosion resistant
- Easy, one handle operation
- Side bolt locking mechanism
- Versatile frame design and optional foundation and extension plates allow the door to accommodate virtually any area.

## Ultra Series: Ultra C Door

- Corrosion-resistant high density polyethylene construction
- Simulated wood design
- Will not rust; never needs painting
- Interchangeable side panels allow homeowners to add light and/or ventilation to their basement
- Gas spring lift assistance for easy one-hand operation
